

# DAA For Aluminum Frame End Surface Mounting Bracket

Aluminum frame edge mount

Cross section diagram A-A

● Material/Finish

	<b>DAA</b>
Main Body	A6063 Anodized

- This part is for fixing the workpiece to □40 aluminum frame end surface.

- Angle hinge **DFS-H** (→ P.xxxx) **DFSN-H** (→ P.xxxx) **DKBR-H** (→ P.xxxx) have compatible mounting dimensions. You can freely combine them for use.

● Application

Machine tool / Medical equipment / FPD production device / Semiconductor manufacturing device / Packing machine / Food machinery

Part Number	Max. Load Weight (kg)	Mass (g)
<b>DAA-60-40</b>	10	190

- Hex socket head cap low profile cap screws (M8 × 16 mm) × 2 pcs for fixing to the aluminum plate end surface are supplied.

● Related Products

Angle hinge that can be used in assembly is available.
